

NOA ABRAHAO KIM

Software Engineer | Nashville, TN

noanonoa@gmail.com | noakim.io | [LinkedIn](#) | [GitHub](#) | English | Korean | Spanish | Portuguese

Results-driven software engineer with 5+ years of experience building full-stack web and mobile applications across Rails, React, Flutter, and Java ecosystems. Promoted twice in 4 years at Ramsey Solutions while delivering regulatory, revenue-critical, and customer-facing systems in production environments. Experienced with REST APIs, CI/CD pipelines, Test-Driven Development, cloud infrastructure (AWS), and cross-platform mobile development using Flutter and .NET MAUI.

TECHNICAL SKILLS

Languages: Ruby, JavaScript, Java, SQL, C#, Dart, Python
Frameworks: Rails, React, Spring Boot, Flutter, .NET MAUI
AI & Tools: Claude Code, Dynatrace, IntelliJ, Vim, Figma, Jira
Cloud & Infra: AWS, REST APIs, Kafka/Avro, Docker, PostgreSQL, MySQL
Integrations: Stripe, Twilio, Segment, OAuth2, CI/CD, GitLab pipelines, GitHub Actions
Testing: TDD, RSpec, Jest/Vitest, JUnit, XUnit

EXPERIENCE

Ramsey Solutions | Franklin, TN

Software Engineer II

Aug 2024 – May 2026

- **Performance:** Reduced median response time for PUT /scenarios by ~410ms (82% improvement) by eliminating a redundant Budget API call on every request.
- **Mobile Migration:** Integral in migrating the EveryDollar Financial Roadmap feature from MAUI to Flutter using AI-assisted workflows to help accelerate delivery timelines significantly.
- **Query Optimization:** Eliminated 6,000-query N+1 dashboard bottleneck in 25 lines of SQL — critical fix in a high-traffic production system.
- **Auth Migration:** Led AuthX-to-Subscription Service authentication migration across 44+ files — replaced deprecated auth service across all user access control paths.
- **FTC Compliance:** Shipped FTC Click-to-Cancel federal compliance feature ahead of May 2025 deadline — built consent tracking model, database migrations, and 3-year data retention pipeline to avoid regulatory exposure.
- **Mentorship:** Coached 3 junior engineers on TDD, code quality, and smaller focused PRs for faster delivery.

Software Engineer I

Jan 2023 – Aug 2024

- **Onboarding & Payments:** Engineered end-to-end onboarding flow integrating Stripe and internal legal document storage — reduced processing time by 40% and eliminated third-party DocuSign dependency.
- **CRM Ownership:** Owned Contacts Client Relationship Management (CRM) feature across 6+ months of full lifecycle: filters, pagination, edit flows, and state memory — used daily by thousands of coaches.
- **Lead Quality:** Integrated Twilio phone verification on high-volume lead forms — improved lead quality by 12%, directly protecting coach revenue.
- **LMS Launch:** Launched Financial Coach Master Training 2.0 coursework platform (lessons, chapters, progression, practice sessions) across 38 commits — full Learning Management System (LMS) under an aggressive timeline.

Quality Engineer II

Aug 2021 – Jan 2023

- **Regression Reduction:** Designed and executed test strategies that reduced regressions by 30% across two large-scale web applications — embedded within engineering teams to shift left quality.
